

# Toggle Clip Assembly

Stainless Steel

## Material :

Toggle clip assembly is made out of stainless steel alloy.

## Description and Typical application:

Toggle Clip Assembly (Clip and catch plate) is designed to secure removable portions of weather protection metal jacketing in position, e.g. at valve and flange locations.

## Application:

Secure the toggle clip and its catch plate to opposite sides of the removable metal jacketing and secure them with aluminum pop rivets.

Install the two opposite sides of the removable metal jacketing at their final position in a way that the clip and its related catch plate are aligned on the same plan.

Bring the swivel latch to the catch plate, push the clip lever down to lock the assembly.

## PHYSICAL PROPERTIES:

TEMPERATURE LIMITS	: 500 oC
Combustibility	: Non combustible - DIN 4102

## STANDARD SIZES

Assembly Length (L)	: 25 and 50 mm
Assembly width (W)	: 12-40 and 15-40 mm
	(lever-base)

## SUPPLY UNITS / PACKING

Various
